Experience

Fullstack Developer
September 2022 - Present
CDP360 Technologies | Chennai, Tamil Nadu

- Frontend Development: Design and implement responsive user interfaces using React.js and Next.js, ensuring optimal performance and user experience.
- Backend Integration: Develop and maintain backend services using Node.js, integrating frontend applications with RESTful APIs and managing databases.
- Collaboration: Work closely with cross-functional teams, participate in code reviews, and contribute to both frontend and backend development.
- Testing and Debugging: Implement testing, troubleshoot issues, and ensure code quality across the stack.

Front-End Developer
March 2021 - August 2022
Eternosoft Technologies | Chennai, Tamil Nadu

- UI/UX Development: Create responsive and user-friendly interfaces using React.js, HTML, CSS, and JavaScript.
- Performance Optimization: Implement best practices to enhance frontend performance and cross-browser compatibility.
- Collaboration: Work closely with designers and backend developers to ensure seamless integration and functionality.
- Testing and Debugging: Conduct unit testing and resolve frontend issues to maintain high code quality.
